- No hidden costs or crank rotation required with ERI

APPLICATIONS/ENGINE IDENTIFICATION

Engine Rebuilders Kubota V3307 engines are used in Agriculture, Construction and several types of Industrial compact equipment such as skid steers, excavators, lifts, tractors weepers and other applications.

- Engine Model and Serial Number
- Engine Model Code (format is 1Jxxx-xxxxx)
- Machine Model and Serial Number

ABOUT THE KUBOTA V3307

- Assembled in the USA.
- Every engine is completely disassembled, cleaned and detailed.
- Blocks, heads, crankshafts and connecting rods are re-machined to meet OEM specifications.
- Internal wear items including pistons, rings, bearings, bushings, gaskets and seals are replaced 100% with new.
- All other components are tested under strict guidelines to ensure they meet the fit, form and function of the original part. All parts not within tolerances are replaced.

QUALITY PROCESSES

Every engine is machined using state-of-the-art equipment and assembled using precise and repeatable methods. All engine production follows documented lean manufacturing processes and principles to create consistent quality and dependable outcomes.

A RECORD OF RELIABILITY

We've been supplying new muscle to used compact equipment for over 40 years, the longest track record you'll find. Veteran machinists, some that have been here since our start, have drawn up detailed procedures for rebuilding each make of engine - so every engine you order meets the same quality standards. Every engine is remanufactured to meet or beat OEM specifications. A remanufactured engine from Engine Rebuilders is much more than just repaired.

WARRANTY COVERAGE

Off-Road Complete Drop-In configurations: 1-year not to exceed 2,000 hours.
